

CITY COMMISSIONERS' TABLE BUDGET AT COUNCIL MEETING

Progress Report is Received From Special Committee Dealing With Hudson's Bay Company Reserve Development Scheme—May Have New Golf Course.

The budget was tabled by the city commissioners at the council meeting last night's council meeting and the estimates submitted will be considered at an additional council meeting Monday night. A progress report was received from the special committee dealing with the Hudson's Bay Company reserve development scheme.

SATURDAY, APRIL 4, 1925.

EXPORT LUMBER DUTY

One of the British Columbia members at Ottawa would put an export tax on lumber, as a means of conserving the national timber supply. Something along that line will evidently have to be done if we are to have any forest left when the present generation passes on. If British Columbia, which is a heavy lumber exporting province, is to be able to export tax the prime buyers of B.C. lumber will have no objection to register.

BETTER "DOCTOR" THE WATER.

The medical officer reports that a hundred new cases of polio have been discovered among school children during March. The disease is becoming so prevalent among children and grown-ups alike, as to call for radical preventive measures. The blame is placed upon a lack of iodine in the city's water supply. The lack is one that can be easily supplied, and ought to be if that will check the somewhat alarming spread of the ailment.

ADAPTING MEANS TO ENDS.

The employees of a ship-building concern at Quebec voluntarily accepted a ten per cent. reduction in pay in order to enable the firm to secure contracts for building two steel ships. As a result the employees are actually working less hard all summer and all next winter. Our industrious fellow countrymen in that province have a rich vein of common sense when it comes to taking measures to keep the wheels going round. The country might be better off if people in other provinces looked in that direction for precedents.

TALE IS CHAP.

If the members of the Legislature would first take a slash at their own war time seasonal indemnities they would arouse more confidence in the sincerity of their concern about the rural schools which are closed because the Government cannot advance money enough to keep them going. A cut of \$500 each of six educational institutions per year would provide money to keep a good many of these schools in operation. Until they consent to that reasonable adjustment members need not expect to convince the public that they are worrying much about the boys and girls in the country who cannot go to school.

ANOTHER MINK DISPUTE.

The mine operators in the southern part of the province have given notice to the miners of District 13 U.M.W.A. that they will terminate the agreement with the organization next September 1st. That does not necessarily mean that the mines will be closed on that date. But it does mean that a new wage agreement will have to be reached, that the mines will close if they are not operated on the open shop principle. The notice is perhaps given with a view to cutting production costs to a figure which would give the coal a chance to compete with United States coal in the Ontario market. A recent official statement said that to accomplish this result the coal would have to be loaded into cars in Alberta at \$5.50 per ton.

SELECTING IMMIGRANTS

A critical member of the British House of Commons thinks the Dominions are too strict in their demands as to qualifications on the part of immigrants. He would have the Government of Great Britain by large areas of land in Canada and colonize these tracts with people of its own choosing. The proposal will hardly meet with favor in Canada. The Government at London is not as well fitted as it might be to select immigrants to make a successful settler in Canada. Even the Canadian Government, with every opportunity to be right, makes some mistakes in that regard. And the unsuccessful settler becomes a recruit for the army of Canada's unemployed, when he does not drift into unemployment. The Canadian people, who have to stand the consequences, will insist upon having the right to do the choosing of immigrants.

THE LEPHTERIDGE JAIL REPORT.

The finding of Judge Walsh is critical of the treatment accorded to Edward Moore, a convict who died in the Lethbridge jail a few days ago. The investigator finds that while it was necessary to place Moore in a dark cell, it was not necessary to keep him there for a week. Moore was a good man, in a delicate and delicate condition, apparently kept in the "dungeon" because he made himself a nuisance to the guards when he allowed himself. Beyond a visit by the jail surgeon, a prescription, and a recommendation that he be sent to an institution at Macleod, he seems to have got little in the way of skilled medical nursing attention when ailing. Whatever loss there is obviously a need that some adequate hospital facilities be provided in connection with that and other prisons. A sick prisoner is surely entitled to that measure of humanitarian consideration.

MORE RESTRICTIONS

Against the wish of Attorney General, the Legislature decided on Thursday that a pious party heretofore cannot get a permit to take along a consignment of beer. Heretofore it has been the prerogative of the liquor license holder to issue or refuse such permits. On recommendation of the Attorney General, the House also decided that thirty houses must be licensed to sell beer, or raspberries and make wine of them. In each instance the tendency is away from statutory prohibition and in the direction of statutory prohibition. It seems necessary and a while to remind ourselves that the wet was the plebeian and that we are no longer under a prohibition. That is one of the things which the Legislature do not seem to be able to do clearly in mind.

THE UNIVERSITY AND CLOSED SCHOOLS.

A university is a costly institution. To create one involves the investment of a vast amount of capital in land, buildings and equipment, and the employment of a large staff of instructors at a heavy annual outlay. Interest bill and operating expenses together inevitably total up to a huge sum.

There are universities and universities, and the cost varies with the kind. A small institution, designed to accommodate a relatively small number of students, built up and carried on with comparatively light capital investment, a limited faculty, and correspondingly low cost. A great university means an investment of millions, and operating costs every year in proportion.

Alberta decided in the beginning of things that it wanted only one university, and that second to none. Yet that decision was right or wrong, wise or otherwise, it was made years ago, has been the basis of a consistent policy of expansion, and it is now too late to alter without serious consequences—including a waste of invested capital.

We have a great university in this province. There is no longer a question but an accomplished fact. It has been designed to accommodate as many students as will want to take a course in higher education, to fit them for many professions, and to give them the best training the money can provide. More than a thousand young men and women are now normally enrolled there. And they are getting training of the highest type, leading to certificates which give the holders places in the first rank of university graduates.

Of course, this is costing money. The fees do not meet the expenses, and could not be made to do so without putting a prohibitive price on a university education. Last year the taxpayers of the Province provided more than \$600,000 to keep the institution going. It is calculated that every student who goes through the course costs the taxpayers \$600. The bulk of that money comes out of the pockets of people whose boys and girls are not attending the university.

This is a condition which cannot be avoided. A comparatively small fraction of the young men and women who are getting a university education under the most favorable circumstances, or could find it financially profitable to take a university course, are actually working for an indirect return in proportion as the men and women who graduate from the university are fitted to contribute either to the material betterment or to the enrichment of the life of the community. If therefore is also concerned in maintaining the kind of university which turns out men and women with the best possible mental and dispositional equipment for sound public service.

It is possible that the university has been developed at rather a pace. It has been built and directed by enthusiasts. The Legislature has given the authorities practically a free hand in the matter of expansion. The public have raised no serious protest the expenditure of capital and the enlargement of the teaching staff. But having brought the institution to its present splendid position it would be a mistake to attempt, as they have done, to keep the Legislature to adopt a retrograde policy and reduce it to a narrower field of usefulness. It may be well in the interests of economy to call a halt for a time to further expansion but not to sacrifice development that has been already made.

Undoubtedly it is inconsistent that while we maintain so excellent a university at great public cost there should be children in outlying districts who are denied the opportunity for a common school education. These closed schools should be opened. But that can be done by saving money in other ways than degrading the university that has been built up by so heavy an investment. If the Government will throw money at the problem with a pruning knife they could trim down outlays of less importance sufficient to enable the University of Education to make special grants to outlying school districts without detriment to the efficiency and prestige of the university.

Twenty Years Ago

From the Files of the Daily Bulletin, April 4, 1905.

The weather: Maximum, 31; minimum, 21.

"Glorious Summer Weather" is about the most fitting phrase to apply to April weather which is being provided for the residents of this city. The thermometer about fifty degrees during the day and at night seldom goes below twenty. The air feels heavy as in mid-summer while the haze which betrays the handiness in a delicate air reminds one of Indian summer of the East.

So many immigrants are coming to the district here that the local authorities are having trouble in finding places to accommodate the newcomers. The regular passenger train had all that it could comfortably handle, it being crowded with people from all over Canada and the United States.

The brickwork is going along rapidly on the new McLaughlin and Second blocks at the corner of First and Second streets. The frame on the third story being put in place yesterday.

At a meeting of the Calgary Board of Trade held yesterday the local business community was treated to a most interesting and instructive lecture by the Hon. J. H. Brown, Minister of the Interior, on the subject of the new province of Alberta and the relations between the federal and provincial governments. The speaker was highly complimentary to the province of Alberta and the people of the province, and a copy of this resolution be sent to all similar organizations within the proposed province.

Current Comment

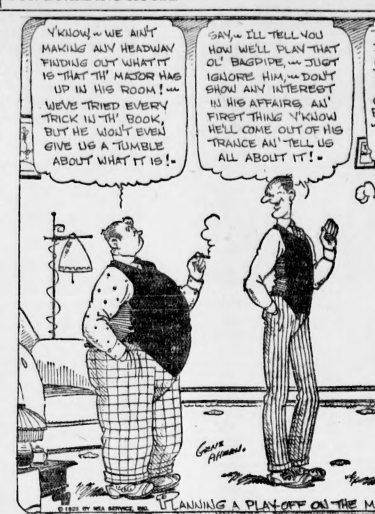

ASPOSEL OF PROTECTION.

The Motion Picture Association of America, Inc., has issued a statement in which it is stated that the motion picture industry is not a business, but a public utility. It is a business, it is a public utility, and it is a business. It is a business, it is a public utility, and it is a business. It is a business, it is a public utility, and it is a business.

THE BUDGET DEBATE.

Calgary Alberta—The budget members continued discussion and occasional criticism, but made no reductions and few attempts at cutting expenses. The vote for the budget was 10-10. The budget was 10-10. The budget was 10-10.

OUR BOARDING HOUSE

—By Ahern

START CAMPAIGN THROUGHOUT NATION

CHICAGO, April 2.—The 10th anniversary observance and poster signing are features of the Youth Year program of the National Y. W. C. T. U. Four young women have started on a speaking tour of the country which will cover all states in the first six months. They will be joined by the first 100,000 of young men and women in total number to the Youth Year program. The issue of the single standard of citizenship, including the education of the young, and foreign born citizens; creation of a sound public sentiment for world peace, and border cooperation as an aid to stamp out running from Canada and Mexico are other features of the program.

A Happy Childhood Is a Matter of Health

Little children quickly get out of sorts but by prompt treatment they can get as quickly but not right again. Most of their troubles arise in the first place from the stomach and bowels, that is why a good clear-cut is the first thing the doctor prescribes. Mothers, why not let Baby's own Tablets keep your children well? Unlike that slim-stomach, rankling cathartic so dreaded by most children, the Tablets are pleasant to take and their action, though thorough, is gentle and causes no discomfort to either the baby or the growing child. Baby's Own Tablets are a never-failing remedy for relieving constipation and indigestion, thus they break up colds and simple fever, expel worms and soothe teething and other pains. The Tablets are sold by medicine dealers or by mail at 25 cents per box from Dr. Williams Medicine Co., Brockville, Ont.

BULLETIN MAIL BAG

"MEDICAL ACT AMENDMENT"
To the Editor of the Bulletin:—Sir: In your editorial in today's Bulletin entitled "Medical Act Amendment" and "Their Limitations" you state that "There is of course no doubt that the Christian Science reader which forbids a person who believes in divine healing to fetch a doctor when that method fails" is "a true fact." It is not a fact, it is a fiction. It is a fiction of the Christian Science movement. It is a fiction of the Christian Science movement. It is a fiction of the Christian Science movement.

CAIRO POLICE SAY COCAINE THREATENS

CAIRO, April 2.—The cocaine habit among Egyptians has grown to such an alarming extent that the police have issued an appeal to the public to name him in keeping down the evil. The Egyptian nation, the official police, is fighting hard to keep the drug habit, which is demoralizing the health and mind of the people, and the police are determined to keep the habit from spreading. The police are determined to keep the habit from spreading. The police are determined to keep the habit from spreading.

VIENNA TO BUILD RADI

VIENNA, April 2.—Vienna is about to erect a municipal radio station which is to cost 1,000,000 crowns. It is to be used solely for official business. The first department especially is to be used extensively.

ALL Mutual Profits go back to the Participating Policyholders

This Company Offers You Life Insurance at Cost

Do you understand the difference between a Mutual Life insurance company and the ordinary insurance company?

The Mutual Company is organized to give insurance to its policyholders at the cost of carrying on the business. The only members of the company are its policyholders. They lend each other mutual financial support, and no charge is made for this mutual service except to cover actual cost of operation.

The Mutual Life of Canada grew up in this country from a sound if modest foundation of 500 members fifty-five years ago. Today it is one of the strongest and ablest institutions in the world, with assets amounting to more than \$200,000,000. The Mutual Life of Canada is the only strictly Canadian Company in Canada offering life insurance at cost.

THE MUTUAL LIFE OF CANADA - Waterloo, Ontario

P. E. Bowen, District Manager, 219-221 IMPERIAL BLOCK, Edmonton, Alta.

Uncle Tom's
Mail Bag

Playing Marbles

Dear Uncle Tom: I thank you for your letter very much. My dog has been a while. We are having a lot of fun these days playing marbles. As it will be Easter, I will send you wishes for a happy Easter. Your nephew, Herbert Shuck, Laramie, Alta.

I hope your dog is all better now. Thanks for your letter. I will send you a story I promised to do you the last of the drawing of them.—UNCLE TOM

Schools & Money

Dear Uncle Tom: Here I am at the end of the month as usual, sending you a story I promised to do you. Our skating and hockey are all over, and the roads here are quite muddy. We can't play games at school because of the mud. We have two new pupils this month and expect four next month. In all there will be twenty-two pupils in our school. Maybe you think that is a small school, but it is much larger than some country schools I know of. One two miles from here has only four pupils and they are from one family and all in different grades.

My sister "Betty" now and goes to bed. Your niece Laura Ann, Box 117, Ponoka.

AN EASTER STORY

It was the night before Easter and Tom and Ruby were visiting at Aunt Mary's. Aunt Mary had not come back from town and Grandma told them on Easter story before they went to bed. It was about a little boy named Jack who had hid some eggs at the barn for Easter. But the night before Easter Jack went down to the barn to feed the horses and find the eggs he had hidden. He was almost crying with disappointment. Then he heard a noise—what was it? There it was again. It came from the alleyway of the barn underneath the pile in the corner where the hay was put down for the horses, and here Jack found a man lying. He saw he was a tramp and near him lay a egg and a bit with the machine eggs.

"You are the one who took the eggs," he said, "and Jack."

"Yes, but my leg, my leg," groaned the man. At this Jack's heart softened. He saw that the man's leg was broken, so he put him on a bed of hay and ran for his father. Then he took him to the house and for a doctor, who fixed him up and said he could not be moved for a week. Jack forgave him for stealing the eggs and they became good friends. When the tramp got left, together.

"Best Thing in the World
For Delicate Girls"

Mrs. John Bennett, Boggy Creek, Man., writes: "My little girl had nervous trouble, could not sleep, had severe headaches and fainting spells. This went on for three years, and three doctors helped her very little. After reading of what Dr. Chase's Nerve Food had done for others, I got some for her. She is now so well that she is like a different child. She is fourteen years old and looks the picture of health."

Dr. Chase's Nerve Food
60 cts. a box of 60 pills, Edmondson, Bates & Co., Ltd., Toronto

LLOYDMINSTER BOARD
HAS MONTHLY BANQUET

(By Bulletin Correspondent)
LLOYDMINSTER, April 2.—The monthly banquet and meeting of the Board of Trade was held in the Royal George hotel this evening. Guests were Mr. Pratt, the manager of the Canadian Bank of Commerce here and Mr. Turnbull, vice here. The board appointed a committee to arrange a gala day to be held here this year the proceeds to be given to the new playing rink for three months and the board passed a resolution of appreciation of his activities. The banquet has a number of photos of the district he is using as lantern slides.

BRUDER SEIL

(By Bulletin Correspondent)
BRUDERSEIL, April 2.—Mrs. Karia and her family have moved to a new home. She has a permanent home. She has moved her buildings and small farm to Philip Green, who has already occupied the place. Brother Seil has just spent a week here and so far so good. Albert Werner has begun to sow turnips. Timber is becoming more scarce every year but still Mr. Werner has some left to sow this season than ever before.

Sophia Kiammer, who is a pupil, representing an operation for a hernia, is approaching in this district. The roads in and near the village are exceedingly muddy. Further in the country the snow is still very deep but soft, which makes travelling difficult. Wagons cannot be used in the distant neighborhoods of the village and sleighs cannot be used in the village. The snow which fell last Monday night eight inches deep is completely thawed and gave a slushy moisture to the land.

ter he obtained work in the town and didn't try to keep any more. Tom and Ruby said it was a fine story, and went off to bed. In the morning they found that their Aunt Mary had got for them a chocolate rabbit and some more colored chocolate eggs and other dainties. Best of all, some little routine came from town so they all had a very happy Easter together.

EIGHT CARS OF WHEAT
SENT FROM DAYSLAND

(By Bulletin Correspondent)
DAYSLAND, April 1.—The Maple seedling company has just shipped eight cars of wheat grown by Daysland farmers to the company here. The wheat is of the best quality and will be made into flour and shipped to New York, from where it goes by water to port on the Black Sea, then inland to Russia. This Daysland is providing part of the one million bushels of wheat that the Russian government has ordered to be shipped to the Russian government. This order is being filled by the New York agent, and A. Schindler sent off the wheat.

The departure of Roy Shepherd was the occasion of a community gathering sponsored by Guy Morris and J. Kipparick, on Tuesday night at the hall, when a goodly number of citizens from town and vicinity met to bid him good-bye. A musical time was spent at cards and dancing. G. B. Tandy, a speech which the good wishes of those present, and on their behalf Roy Shepherd with a head speech, and on their behalf Roy Shepherd with a head speech, and on their behalf Roy Shepherd with a head speech.

HALKIRK

(By Bulletin Correspondent)
HALKIRK, April 2.—On Tuesday evening the Halkirk band entertained a social entertainment. Cards, musical items and dancing varied the evening, to say nothing of a social excellent lunch. Cards and dancing were enjoyed, also refreshments. The feature of the evening was the presentation to Roy Shepherd of a musical score. Mr. E. Shelly, who has been manager of the community at Halkirk, presented his new duties at the Halkirk community. April 1, Mr. and Mrs. Shelly and child intend to occupy the rooms over the most market when the fire repairs are completed. They are temporarily at the Halkirk hotel.

Mr. McLaughlin, who has been living on a winter settlement and farm west of town, is looking for another location. It is understood that the house he now occupies will be required by a family of British settlers who are coming under the latest immigration plan.

The road here is in a dreadful state at present, being fit for neither sleighs or wheals. All sleighs filling rapidly and many cars of valuable and may go unutilized this year owing to the prospective overflow of wheat. Motion for sending vill is denied.

Here to Mr. and Mrs. Ed. Taylor, south of Halkirk, on the 25th inst. A girl.

The quarterly official board of Zion union church met Monday afternoon. Mrs. W. H. Taylor was appointed delegate to the district meeting in May. Messrs. Dyer and Milne were appointed stewards for the ensuing year in the Halkirk appointment.

CLYDE

(By Bulletin Correspondent)
CLYDE, April 2.—Half a dozen new settlers from Wain are expected here any day of this week. Suitable places have been made ready for them by the R. V. B. Two carloads of new machinery were shipped by the Mackay-Hart company the other day. Most of the building operations are going on in town right now. Mr. Carlson is putting up a house on Halkirk street and Mr. Israel Fortier contemplates building a new residence on Main street. Mrs. E. Carben is one of the many who are now in the district. There seems to be an epidemic of colds and flu in the district, which will double in importance when the mowing season has disappeared.

DECORATED FORMS
SPECIALLY PREPARED

TORONTO, Ont., April 2.—Easter is a time of good will when greetings between friends, through the Canadian National Telegraphic forms are exchanged. A new departure in sending of special messages was announced today by General Manager W. G. Fisher, Canadian National Telegraphic forms have been prepared for the delivery of greeting messages during Easter time. These forms which are especially decorated with Easter motifs and printed in three colors will be placed in every one of the hundreds of Canadian National agencies throughout Canada and will give an intimate touch to all messages received with a view to simplifying the wording of these messages. Mr. Fisher also announced that a special booklet suitably decorated containing more than twenty-five suggestions for Easter telegrams will also be found at the various Canadian National telegraph agencies for the benefit of the patrons arrangements have also been made for the making of special Easter messages to the United Kingdom and Ireland for the benefit of patrons two or three appropriate messages have been prepared and will be mailed exactly as written for the unusually small amount of \$1.00.

In Ontario and points east and west.

Weak Throat Strengthened;
Voice Was Impaired

For years past public speakers singers and ministers have been aware of CATARRHOZON in order to give strength and clearness to the voice. Writing from N. H. Hillside, N.H., Mr. John E. Nicholson says: "I have trouble with my throat and voice for some time, and could get no benefit with anything until I tried CATARRHOZON, which improved me greatly, and I cannot say too much in its favor. I can now speak much more clearly and with more ease and ready to recommend CATARRHOZON." Flavored John E. Nicholson.

Catarrhonia is a marvel for throat trouble, croup, bronchitis, coughs, colds. Large size \$1, small size 50c. at all druggists.

Citizens having rooms available for the accommodation of teachers and others attending the annual meeting of the National Education Association during Easter week are asked to communicate by letter or telephone with the undersigned, stating names of persons and charges. Rooms may be secured at the First Presbyterian Church, Room 20, 101-103, 105, 107, 109, 111, 113, 115, 117, 119, 121, 123, 125, 127, 129, 131, 133, 135, 137, 139, 141, 143, 145, 147, 149, 151, 153,
